Branch protection rule

Apply rule to

master

Applies to 1 branch

master

Rule settings

Protect matching branches

Disables force-pushes to all matching branches and prevents them from being deleted.

☒ Require pull request reviews before merging

When enabled, all commits must be made to a non-protected branch and submitted via a pull request with the required number of approving reviews and no changes requested before it can be merged into a branch that matches this rule.

Required approving reviews: 1

...

This is my first exercise forking and branching from a repository to my personal GitHub account. Used for GitHW2 for Software Design.

committed

4614836

Add more commits by pushing to the newbranch branch on cynthiawambua/cis4296-starter.

Continuous integration has not been set up

Several apps are available to automatically catch bugs and enforce style.

☒ This branch has no conflicts with the base branch

Merging can be performed automatically.
